IMMEDIATE RELEASE:

October 21, 2011

AML recognized by Women Business Owners organization

Ankeny – Association Management, Ltd. (AML), which was acquired in August by ISA Management Solutions, Inc., a wholly owned subsidiary of Iowa Soybean Association (ISA), was recognized as a Corporate Sponsor at the 25th Anniversary celebration of the National Association of Women Business Owners - Central Iowa Chapter (NAWBO-CI).

Molly Lopez, CAE, president of AML, accepted the award on behalf of AML and ISA Management Solutions. As the former owner of AML, Lopez was a member of NAWBO-CI since 2001 and will remain active as a Corporate Partner.

“I experienced firsthand the relationships that this association brought to me during my years as a business owner,” says Lopez. “It is important for AML to remain a supporter of NAWBO-CI as a Corporate Partner. The sustainability of NAWBO-CI is important for the future of women-owned businesses.”

Founded in 1976, AML manages the business of associations and is a full-service, internationally accredited (one of only 70+ accredited firms worldwide) Association Management Company. The firm provides management and outsourcing solutions for eight international, national, regional and state trade associations and professional societies that represent 5,000+ individual members and 500+ company members from 57 countries.
